CHICAGO INTERIOR DESIGN FIRM SOARS IN A BAD ECONOMY

Divas N' Design, a Chicago Interior Design Firm that specializes in single room, home, and corporate spaces, has launched its new website: divasndesign.com.

Divas N' Design teamed with Chicago-area online marketing and web design EMZM marketing management (emzm.com) to create an elegant yet easy-to-use site that showcases the firm's incredible interior design portfolio.

Users will enjoy an interactive photo gallery, client testimonials and in-depth bios about the designers.

"Our updated website and logo better represents the quality of work we strive to give our clients," said Karyn Musick, CEO and Principal Interior Designer of Divas N' Design.

"Your home is not only the most important investment in your life, it's where you live! It reflects your style and personality and it should be as beautiful and comfortable as it can possibly be, even if you are only updating your home.

EMZM Principal & Interactive Director Dr. Brandon W. Stiner noted, "Karyn is a local renowned Licensed Interior Designer. We needed a new website design that really popped, but was extremely functional and search engine friendly. The new website does just that, while keeping Divas N' Design's beautiful work at the forefront."

Divas N' Design has worked with a number of upscale clientele, buildings include: The Bristol Building, The Fordham, The Trump Tower, 10 East Delaware, 50 East Chestnut, and 55 West Erie.
